

**Town of Nantucket  
Streets & Sidewalks Advisory Committee**

**Meeting Notes  
Meeting of June 11, 2009  
9:00 AM  
2 FG**

Committee members in attendance: Atherton, Roggeveen, Young, Coffin, Oktay, Rowland, Willett, Lowell, and Gardner. Others: Wagley

With a few edits agreed upon, the Committee moved, with all members present voting in the affirmative, to send the report to the BOS and further to arrange for a time when the members could attend and share in the presentation to the BOS.

Mr. Wagley stated his general concern that one of the goals of the Committee should be to eliminate parking on sidewalks. The members generally felt this required a detailed analysis of each street. Given the fact that some streets were simply too narrow and parking is very limited, losing parking spaces is difficult and not subject to a broadly stated goal. He also believes the Town should adopt a policy that over time, and as reconstruction gives an opportunity, would require all sidewalks be done in brick. Again the Committee felt this should be done on a street by street basis.

The discussion emphasized that the recommendations of this committee were advisory only and the next steps suggested in the report will require action by the Planning Board and the Board of Selectmen.

Note taker,

Rick Atherton
