ORDER SUSPENDING CERTAIN PROVISIONS 
OF THE OPEN MEETING LAW, G. L. c. 30A, § 20

WHEREAS, on March 10, 2020, I, Charles D. Baker, Governor of the Commonwealth 
of Massachusetts, acting pursuant to the powers provided by Chapter 639 of the Acts of 1950 
and Section 2A of Chapter 17 of the General Laws, declared that there now exists in the 
Commonwealth of Massachusetts a state of emergency due to the outbreak of the 2019 novel 
Coronavirus (“COVID-19”); and

WHEREAS, many important functions of State and Local Government are executed by 
“public bodies,” as that term is defined in G. L. c. 30A, § 18, in meetings that are open to the 
public, consistent with the requirements of law and sound public policy and in order to ensure 
active public engagement with, contribution to, and oversight of the functions of government; 
and

WHEREAS, both the Federal Centers for Disease Control and Prevention ("CDC") and 
the Massachusetts Department of Public Health ("DPH") have advised residents to take extra 
measures to put distance between themselves and other people to further reduce the risk of being 
exposed to COVID-19. Additionally, the CDC and DPH have advised high-risk individuals, 
including people over the age of 60, anyone with underlying health conditions or a weakened 
immune system, and pregnant women, to avoid large gatherings.

WHEREAS, sections 7, 8, and 8A of Chapter 639 of the Acts of 1950 authorize the 
Governor, during the effective period of a declared emergency, to exercise authority over public 
assemblages as necessary to protect the health and safety of persons; and

WHEREAS, low-cost telephone, social media, and other internet-based technologies are 
currently available that will permit the convening of a public body through virtual means and 
allow real-time public access to the activities of the public body; and

WHEREAS section 20 of chapter 30A and implementing regulations issued by the 
Attorney General currently authorize remote participation by members of a public body, subject 
to certain limitations;
NOW THEREFORE, I hereby order the following:

(1) A public body, as defined in section 18 of chapter 30A of the General Laws, is hereby relieved from the requirement of section 20 of chapter 30A that it conduct its meetings in a public place that is open and physically accessible to the public, provided that the public body makes provision to ensure public access to the deliberations of the public body for interested members of the public through adequate, alternative means.

Adequate, alternative means of public access shall mean measures that provide transparency and permit timely and effective public access to the deliberations of the public body. Such means may include, without limitation, providing public access through telephone, internet, or satellite enabled audio or video conferencing or any other technology that enables the public to clearly follow the proceedings of the public body while those activities are occurring. Where allowance for active, real-time participation by members of the public is a specific requirement of a general or special law or regulation, or a local ordinance or by-law, pursuant to which the proceeding is conducted, any alternative means of public access must provide for such participation.

A municipal public body that for reasons of economic hardship and despite best efforts is unable to provide alternative means of public access that will enable the public to follow the proceedings of the municipal public body as those activities are occurring in real time may instead post on its municipal website a full and complete transcript, recording, or other comprehensive record of the proceedings as soon as practicable upon conclusion of the proceedings. This paragraph shall not apply to proceedings that are conducted pursuant to a general or special law or regulation, or a local ordinance or by-law, that requires allowance for active participation by members of the public.

A public body must offer its selected alternative means of access to its proceedings without subscription, toll, or similar charge to the public.

(2) Public bodies are hereby authorized to allow remote participation by all members in any meeting of the public body. The requirement that a quorum of the body and the chair be physically present at a specified meeting location, as provided in G. L. c. 30A, § 20(d) and in 940 CMR 29.10(4)(b), is hereby suspended.

(3) A public body that elects to conduct its proceedings under the relief provided in sections (1) or (2) above shall ensure that any party entitled or required to appear before it shall be able to do so through remote means, as if the party were a member of the public body and participating remotely as provided in section (2).

(4) All other provisions of sections 18 to 25 of chapter 30A and the Attorney General’s implementing regulations shall otherwise remain unchanged and fully applicable to the activities of public bodies.

This Order is effective immediately and shall remain in effect until rescinded or until the State of Emergency is terminated, whichever happens first.
Given in Boston at 6:30 PM this 12th day of March, two thousand and twenty.

PROCLAMATION

WHEREAS, the Congress and President of the United States have designated Friday, May 15th as Peace Officers’ Memorial Day, and the week that May 15th falls on as National Police Week; and

WHEREAS, the members of the Nantucket Police Department play an essential role in safeguarding the rights and freedoms of Nantucket; and

WHEREAS, it is important that all citizens know and understand the duties, responsibilities, hazards, and sacrifices of their law enforcement agency, and that members of our law enforcement agency recognize their duty to serve the people by safeguarding life and property, by protecting them against violence and disorder, and by protecting the innocent against deception and the weak against oppression; and

WHEREAS, the members of the Nantucket Police Department unceasingly provide a vital public service.

NOW, THEREFORE, the Select Board of the Town of Nantucket, call upon all citizens of the Town of Nantucket to observe the week of May 10-16, 2020 as Police Week. I FURTHER call upon all citizens of the Town of Nantucket to observe Friday, May 15, 2020, as Peace Officers’ Memorial Day in honor of those law enforcement officers who, through their courageous deeds, have made the ultimate sacrifice in service to their community or have become disabled in the performance of duty, and let us recognize and pay respect to the survivors of our fallen heroes.

Nantucket's Census Complete Count Committee recognizes that our community's health and safety are the most pressing concerns during this unprecedented time, and that communication about public health takes priority. However, the 2020 Census is ongoing - and vitally important for Nantucket's future.

It's never been easier to get counted, and to count everyone who lives at your address. You can use your smartphone, tablet, or computer to do so online, you can do so over the phone in 13 languages, or you can complete and return the Census questionnaire that may have been delivered to your home by now. (You do not need a form to respond online or by phone, however!)

The US Census takes place once every ten years and is mandated by the Constitution. Statistics from responses are used to make decisions about federal funding for community services that we rely on every day: health care (including Medicaid, Medicare, and the Children's Health Insurance Program), schools, food assistance, housing, emergency services, senior programs, and more. An accurate count ensures that Nantucket gets its share, as funding levels that are determined as a result of the 2020 Census will be in place for our community for the next ten years!

Please get counted, and encourage friends, colleagues, and family members to do so at 2020census.gov. Choose your language and click on the "Respond" button to take the Census. It's safe, quick, easy - and individual data is protected by federal law. Your information cannot be shared with any federal, state, or local agency for any reason. There is NO citizenship question on the Census, and everyone is asked to participate. We ALL count for Nantucket!

In an effort to "get out the count" on Nantucket we've started posting information on Facebook, via the Community Foundation for Nantucket's page. Please visit the foundation's page so you can see and - very importantly - share these posts on your own personal and organizational pages! You'll recognize some faces, and can learn a lot about why an accurate count is important. If Facebook isn't your thing, please share the information on Instagram or Twitter - or even by email.

Please get counted and help shape Nantucket's future!

EMERGENCY ORDER No. 1  Temporary Moratorium on all construction projects on Nantucket.

In consideration of the State of Emergency declared in the Town of Nantucket, upon the recommendation of Emergency Management and Public Health Officials, and the need to protect the health of the inhabitants of the Town of Nantucket, the following order shall be implemented until such time as the state of emergency has been lifted.

Effective Friday, March 20, 2020 the Town is suspending all regular activity at construction sites on Nantucket, including but not limited to all work authorized by building permits and street opening permits. Upon issuance of this order, all active construction sites shall be secured to prevent unauthorized entry, damage to equipment and/or work-in-progress and to protect public safety. Operators shall employ the necessary crews and labor to complete the work necessary to secure their sites by 5:00 p.m. on Friday, March 20, 2020. After that time, only skeleton crews will be permitted to enter construction sites for the remainder of the moratorium and such entry shall be limited to what is necessary to ensure safety and security.

The only work that will be permitted after March 20, 2020 will be emergency work, which will need to be approved by the Town of Nantucket Planning and Land Use Services Department.

For purposes of this Order, Emergency Work includes only the minimum work necessary to prevent damage to persons or property and/or to ensure the habitability of existing residential structures until such time as this order is lifted, including the following:

- Emergency Utility, road or building work, such as to repair water leaks and sinkholes.
- New Utility connections to occupied buildings where prior connections are no longer functioning.
- Mandated building or utility work to protect public health and safety.
- Work at health care facilities, shelters, including temporary shelters and other facilities that support vulnerable populations or that provide emergency services.
- Work which ensures the reliability of the transportation network.
- Other work necessary to render occupied residential building fully habitable.

In addition to the list of emergency construction projects, the Town will, on a case-by-case basis, review requests for exceptions to the temporary construction moratorium. These may be granted by the Building Commissioner for building related work or the Public Works Director for street related work. These will be granted only if they support increased public health and safety.

This order is effective Friday, March 20 through Monday, April 6 and will be reviewed at regular intervals by the Select Board, the Town’s Incident Management Team and Public Health Officials. New projects cannot be started at this time, and no new permits will be issued unless they meet the criteria above.
Any currently permitted and/or active construction project/work must be in a secure situation by 5:00 p.m. on Friday, March 20, 2020.

Any person who violates this Order will be subject to issuance of an immediate Stop Work Order and an assessment of the maximum penalty authorized by law.

So Ordered by the Nantucket Select Board;

Dawn Hill-Holdgate, Chair
Rita Higgins, Vice-Chair
Matt Fee, Member
Jason Bridges, Member
Kristie Ferrantella, Member

In Concurrence with;

Libby Gibson, Town Manager
William Pittman, Director, Office of Emergency Management
Roberto Santamaria, Director, Department of Public Health
Paul Murphy, Nantucket Building Commissioner
Gary A. Shaw, President, Nantucket Cottage Hospital
SUPPLEMENTAL EMERGENCY ORDER

WHEREAS, effective Friday, March 20, 2020 the Town of Nantucket issued an Emergency Order temporarily suspending all regular activity at construction sites on Nantucket, including but not limited-to all work authorized by building permits and street opening permits (Emergency Order No. 1).

WHEREAS, the Town of Nantucket issued an Emergency Stay-at-Home Order on March 22, 2020 seeking cooperation of all residents to limit possible transmission of COVID-19 (Emergency Order No. 3).

WHEREAS, the situation involving the COVID-19 crisis continues to evolve, with additional guidance being issued daily by the Federal and State governments.

WHEREAS, on March 23, 2020, Governor Baker issued an order identifying certain essential and non-essential businesses and directed the Department of Public Health to issue a stay-at-home advisory.

WHEREAS, on March 24, 2020 Governor Baker, through his Chief Legal Counsel, issued guidance interpreting the March 23, 2020 order with respect to the scope of authority of local governments to regulate matters in the order, particularly with respect to construction.

WHEREAS, on March 25, 2020, the Town of Nantucket and all of the towns on Martha’s Vineyard requested that the Governor and Lieutenant Governor clarify such order based upon circumstances including but not limited to the Islands’ unique circumstances.

WHEREAS, on March 26, 2020, officials from Nantucket participated in a conference call with the Secretary of the Executive Office of Public Safety and Security, among others, and indicated their concern about continued construction on the island for purposes including but not limited to travel to and from the island, limited public safety personnel, limited hospital capacity, and more.

WHEREAS, on March 29, 2020, officials from the Town of Nantucket participated in a telephone conference with the Governor’s Legal Counsel, Legislative Director and Chief Secretary, who affirmed that local governments retain the authority to enact regulations that are more stringent than the Governor’s orders, to regulate activities within their jurisdictions based on their individual circumstances.

WHEREAS, we wish to re-affirm the unique circumstances facing the Town and island of Nantucket that require a strict limitation on all non-essential business, including construction and commercial landscaping projects, and to re-affirm that all non-emergency construction work and all commercial landscaping work is prohibited until the expiration of the applicable orders or they are sooner rescinded.
WHEREAS, Nantucket is uniquely situated insofar as it is only accessible by boat or airplane. In this regard, the primary method for travel to and from the island by many construction and landscape workers will be by boat. It is customary and expected that workers will travel together from the mainland and once they arrive, they will travel together to and from work sites. Due to the group nature of this type of travel, it is unlikely that sufficient physical distancing can be maintained.

WHEREAS, Nantucket has only one hospital, Nantucket Cottage Hospital. While the doctors, nurses and staff have done and continue to perform outstanding work in the face of this crisis, they have limited resources and cannot handle an influx of illness spread by failure to comply with social distancing protocols. Of particular concern are the facts that the Hospital has only fourteen licensed beds, three ventilators, and it does not have an intensive care unit. Thus, anyone needing such care will be required to be airlifted to a hospital on the mainland, further diminishing the capabilities on hospital staff.

WHEREAS, the Nantucket Cottage Hospital President Gary Shaw has said time and again that given the small size and the geographic isolation of the Islands and limited access to PPE and other emergency equipment, failure to limit exposure will necessarily result in the overburdening of each hospital’s resources and lead to a further health crisis emergency. Hospital leaders have further indicated that their ethics teams are now analyzing how the hospitals will make decisions as to who should receive treatment and who should not, or cannot. This is our reality today.

WHEREAS, during this state of emergency, Nantucket does not have sufficient resources to provide emergency police, fire and ambulance service above what it is providing to Island residents during this unusual period. Indeed, as an island community of just one municipality, Nantucket has no opportunities to call on the mutual aid of its neighbors to assist should its resources become overwhelmed.

WHEREAS, during this state of emergency, Nantucket does not have sufficient staffing to ensure that job sites are safe, insofar as it cannot commit emergency first-responders to performing construction detail work, it cannot monitor job sites to ensure that physical distancing requirements are met, and it cannot provide adequate support in the event of an emergency.

WHEREAS, it is essential that visitors to the Island be limited to only those who absolutely have to be here so that the Town’s limited resources do not become overwhelmed and insufficient to protect the health and safety of its residents, first responders and essential workers.

NOW THEREFORE, based on the conditions cited above, and other well-known adverse effects of the COVID-19 crisis, the Nantucket Board of Health, upon the recommendation of Emergency Management and Public Health Officials, the Director of the Nantucket Cottage
Hospital, and the Select Board, and the need to protect the health of the inhabitants of the Town of Nantucket, hereby reaffirms and supplements Emergency Orders Nos. 1 and 2, as follows:

There hereby continues in effect an Emergency Order imposing a temporary moratorium on all non-essential construction work until such time as the State of Emergency declared due to the outbreak of COVID-19 is lifted, as well as an Emergency Stay-at-Home Order that limits, among other things, landscaping.

As of the date of this Supplemental Emergency Order, all non-essential construction and landscaping shall continue to be prohibited in the Town of Nantucket and must immediately cease until further order, except as provided herein. This Order applies to all work sites, including but not limited-to all work authorized by building permits and street opening permits previously issued. This Order also prohibits work by commercial landscaping and other similar businesses performing work that is not essential as defined below.

This Order shall apply as follows:

Existing and newly permitted projects which comprise essential construction may be undertaken in a manner that is consistent with this Order and any further orders of the Commonwealth, the Board of Health and/or the Building Commissioner, to the extent that such orders are more restrictive than what is set forth herein.

For purposes of Emergency Order Nos. 1 and 3, and this Supplemental Emergency Order, essential construction includes only the following work:

- Work to build or repair roads, bridges, transit facilities, utilities, hospitals or health care facilities, or homeless shelters.
- Emergency Utility, road or building work, such as to repair water or sewer leaks and sinkholes.
- New Utility connections to occupied buildings where prior connections are no longer functioning.
- Site-specific building or utility work ordered by a Governmental entity to protect public health and safety.
- Work at health care facilities, shelters, including temporary shelters and other facilities that support vulnerable populations or that provide emergency services.
- Work which ensures the reliability of the transportation network.
- Other work necessary to render occupied residential buildings fully habitable.
Under no circumstance will the term emergency work include construction on unoccupied residential or commercial structures unless it is in a class of work described above.

Consistent with action already taken, all active construction sites shall be secured to prevent unauthorized entry, damage to equipment and/or work-in-progress and to protect public safety. Only skeleton crews will be permitted to enter construction sites for the remainder of the moratorium and period of this Supplemental Emergency Order, and such entry shall be limited to what is necessary to ensure safety and security.

At every site where essential construction activity continues under one of the categories authorized above, operators shall ensure that all activity is undertaken in a manner consistent with the Commonwealth of Massachusetts COVID-19 Guidelines and Procedures for all Construction Sites and Workers at all Public Work as issued by the Governor on March 25, 2020 and attached to this Order (the “Guidelines”). The Operator shall ensure that the work site and activities undertaken therein are and shall remain in compliance with the Guidelines. All permissive language (e.g. phrases with “please” or “should”) are hereby deemed mandatory obligations.

At every site where construction activity continues, one or more site-specific COVID-19 liaison officer(s) shall be identified who shall maintain a daily compliance log and shall certify that the contractor, subcontractors and all workers are in full compliance with this Order and the Guidelines.

OF ANY NUMBER OF INDIVIDUALS; AND ORDERING CESSATION OF

Please read this Order carefully. Violation of or failure to comply with this Order is
punishable by a fine of up to One Thousand Dollars pursuant to Massachusetts
General Laws Chapter 111, Section 122.

UNDER THE AUTHORITY OF MASSACHUSETTS GENERAL LAWS CHAPTER 111, §§95
THROUGH 105, THE NANTUCKET SELECT BOARD AND THE NANTUCKET BOARD
OF HEALTH, ACTING THROUGH THE HEALTH AND HUMAN SERVICES DIRECTOR,
ORDERS:

1. The intent of this Order is to ensure that the maximum number of people self-isolate in
their places of residence to the maximum extent feasible, while enabling essential
services to continue, to slow the spread of COVID-19 to the maximum extent possible.
When people need to leave their places of residence, whether to obtain or perform vital
services, or to otherwise facilitate authorized activities necessary for continuity of social
and commercial life, they should at all times as reasonably possible comply with Social
Distancing Requirements as defined in Section 7 below. All provisions of this Order
should be interpreted to effectuate this intent. Failure to comply with any of the
provisions of this Order constitutes an imminent threat to public health.

2. All individuals currently living within the Town and County of Nantucket (“Town”) are
ordered to stay at their place of residence. To the extent individuals are using shared or
outdoor spaces, they must at all times as reasonably possible maintain social distancing of
at least six feet from any other person when they are outside their residence. All persons
may leave their residences only for Essential Activities, Essential Governmental
Functions, or to operate Essential Businesses, all as defined in Section 7. All businesses
with a facility in the Town, except Essential Businesses as defined below in Section 7, are
required to cease all activities at facilities located within the Town except Minimum Basic
Operations, as defined in Section 7. For clarity, businesses may also continue operations consisting exclusively of employees or contractors performing activities at their own residences (i.e., working from home). All Essential Businesses are strongly encouraged to remain open. To the greatest extent feasible, Essential Businesses shall comply with Social Distancing Requirements as defined in Section 7 below, including, but not limited to, when any customers are standing in line.

3. All public and private gatherings of any number of people occurring outside a household or living unit are prohibited, except for the limited purposes as expressly permitted in Section 7. Nothing in this Order prohibits the gathering of members of a household or living unit.

4. All travel on the island, including, but not limited to, travel on foot, bicycle, scooter, motorcycle, automobile, public transit, except Essential Travel and Essential Activities as defined below in Section 7, is prohibited. People must use public transit only for purposes of performing Essential Activities or to travel to and from work to operate Essential Businesses or maintain Essential Governmental Functions. People riding on public transit must comply with Social Distancing Requirements as defined in Section 7 below, to the greatest extent feasible. This Order allows travel into or out of the Town to perform Essential Activities, operate Essential Businesses, or maintain Essential Governmental Functions.

5. This Order is issued based on evidence of increasing occurrence of COVID-19 within the Commonwealth of Massachusetts and elsewhere in the Country, scientific evidence and best practices regarding the most effective approaches to slow the transmission of communicable diseases generally and COVID-19 specifically, and evidence that the age, condition, and health of a significant portion of the population of the Town places it at risk for serious health complications, including death, from COVID-19. Due to the outbreak of the COVID-19 virus in the general public, which is now a pandemic according to the World Health Organization, there is a public health emergency throughout the Town. Making the problem worse, some individuals who contract the COVID-19 virus have no symptoms or have mild symptoms, which means they may not be aware they carry the virus. Because even people without symptoms can transmit the disease, and because evidence shows the disease is easily spread, gatherings can result in preventable transmission of the virus. The scientific evidence shows that at this stage of the emergency, it is essential to slow virus transmission as much as possible to protect the most vulnerable and to prevent the health care system from being overwhelmed. One proven way to slow the transmission is to limit interactions among people to the greatest extent practicable. Importantly, the island has limited medical care options and availability, including but not limited to the number of hospitals and other healthcare operations, the number of beds available generally and in intensive care units, as well an extremely limited number of ventilators. Additionally, the Town acknowledges that the size of the island population is driven by seasonal residents and visitors; during the winter months, including early spring, the food supply, services industry, public safety personnel, general governmental staff, and more, are at minimum levels. By reducing the spread of the COVID-19 virus, this Order helps preserve critical and limited healthcare capacity in the Town.
6. This Order incorporates by reference, the March 10, 2020 Declaration of Emergency issued by Governor Baker, and the Declaration of Emergency issued by the Nantucket Select Board on March 18, 2020, and, further, formally acknowledges that several states and municipalities have issued stay-at-home orders to address the rapid transmission of COVID-19 by those who do not yet show symptoms, but are carrying the virus, and those that have been identified as presumptive positive or confirmed positive for the virus.

7. Definitions and Exemptions.

a. For purposes of this Order, individuals may leave their residence only to perform any of the following “Essential Activities.” People at high risk of severe illness from COVID-19 according to the U.S. Centers for Disease Control and Prevention (“CDC”) and people who are sick are urged to stay in their residence to the extent possible except as necessary to seek medical care.
   i. To engage in activities or perform tasks essential to their health and safety, or to the health and safety of their family or household members (including, but not limited to, pets), such as, by way of example only and without limitation, obtaining medical supplies or medication, visiting a health care professional, or obtaining supplies they need to work from home.

For purposes of this Order, all first responders, emergency management personnel, emergency dispatchers, court personnel, and law enforcement personnel, and others who need to perform Essential Services are categorically exempt from this Order in connection with the provision of such services. Further, nothing in this Order shall prohibit any individual from performing or accessing “Essential Governmental Functions,” as determined by the governmental entity performing those functions. Each governmental unit in the Town shall identify and designate appropriate employees or contractors to continue providing and carrying out any Essential Governmental Functions. All Essential Governmental Functions shall be performed in compliance with Social Distancing Requirements as defined in this Section, to the extent possible.

e. For the purposes of this Order, covered businesses include any for-profit, non-profit, or educational entities, regardless of the nature of the service, the function they perform, or its corporate or entity structure.

¹ This section shall take effect on Wednesday, March 25, 2020 at 5:00 p.m, or such later date determined by the
Town after consultation with appropriate state and federal entities. Until the effective date of this provision, it shall
have the force of a strong recommendation to anyone considering coming to the Town.
g. For the purposes of this Order, “Minimum Basic Operations” include the following, provided, however, that employees shall comply with Social Distancing Requirements as defined this Section, to the maximum extent possible, while carrying out such operations:

   ii. The minimum necessary activities to facilitate employees of the business being able to continue to work remotely from their residences.

h. For the purposes of this Order, “Essential Travel” includes travel for any of the following purposes. Individuals engaged in any Essential Travel must comply with all Social Distancing Requirements as defined in this Section.

² This section shall take effect on Wednesday, March 25, 2020 at 5:00 p.m., or such later date determined by the Town after consultation with appropriate state and federal entities. Until the effective date of this provision, it shall have the force of a strong recommendation to anyone considering coming to the Town.

Health and Human Services. To allow for planning by, and sufficient notice to, all residents and voters of the Town, of any possible extension, the Select Board and Director of Health and Human Services shall discuss any developments and the then-applicable facts at its April 1, 2020, scheduled Board Meeting, and at any meeting thereafter as such board deems appropriate. Notice of any approved extension shall be communicated to the public as provided in Section 11. Residents are encouraged to access the Town website frequently for updates.

11. Copies of this Order and any other notices required by this Order shall promptly be: (1) made available at the Town Administration Building; (2) posted on the Town Website; and (3) provided to any member of the public requesting a copy of this Order; further, shall, as soon as reasonably possible following adoption of the same, be provided to the Boston Globe, Boston Herald, Cape Cod Times, Nantucket Inquirer and Mirror, and the Associated Press.

12. If any provision of this Order or the application thereof to any person or circumstance is held to be invalid, the reminder of the Order, including the application of such part or provision to other persons or circumstances, shall not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.

EMERGENCY ORDER NO. 5  
EFFECTIVE TUESDAY, APRIL 21, 2020  
OF THE NANTUCKET BOARD OF HEALTH  
COVID-19 BACK TO WORK PROGRAM FOR CONSTRUCTION  
PHASE 1

PURPOSE:

To provide the construction community on Nantucket with the ability to begin working again and completing projects with a very limited scope and number of workers on-site while still practicing social distancing and procedures to help prevent the spread of COVID-19, the Board of Health of the Town of Nantucket hereby issues the following Emergency Order No. 5 to establish the Phase 1 Back-to-Work Program for Construction and Landscaping on the Island of Nantucket.

The intent of this program is to be able to address the most important aspects of unfinished construction so that all work can be advanced to a point that protects the project from the dangers of prolonged exposure to weather, and to allow a certain limited amount of construction to complete much needed year-round housing, workforce housing and employee housing. Without the work listed below dwellings and other buildings will sustain damage that will render materials unusable and existing dwellings uninhabitable and the year-round affordable housing crisis will be worsened.

This Phase I level of work is limited to the work described below and is permissible subject to approval by the Building Commissioner subject to adherence with the general COVID-19 protocols enforceable by the Board of Health and the requirements of this Order. These protocols shall remain in place until the state of emergency is lifted or until further order of the Board of Health. New construction and renovation starts are not permitted, and only the work described herein will be allowed.

Status of Emergency Order No. 1
The purpose of this Emergency Order No. 5 is to expand upon and clarify Emergency Order No. 1, as supplemented on April 2, 2020 (“Emergency Supplemental Order”).

All projects described in the Emergency Supplemental Order will continue to be authorized in accordance with the terms of the Emergency Supplemental Order, provided that said projects are conducted in accordance with the requirements of this Emergency Order No. 5.

Only the projects listed in the Emergency Supplemental Order and this Emergency Order No. 5 will be permitted to begin or continue, and all other construction shall be prohibited until the moratorium is lifted or further allowances are incorporated in phases.

For purposes of the Emergency Supplemental Order and this Emergency Order No. 5, projects comprising “other work necessary to render occupied residential buildings fully habitable” shall
mean work on a residential building used for dwelling purposes that was complete and occupied at any time prior to March 20, 2020, and where the work relates to the habitability of the structure, such as work on kitchens and bathrooms, plumbing and electrical work, including activation of existing utilities, emergency repairs and the completion of work on renovations started prior to March 20, 2020. This section shall not apply to additions, unless they fit into one the categories described below, or any other work deemed non-essential by the Building Commissioner.

**Part 1: Allowable Construction**

1. For the purposes of this Order, “unfinished construction” shall mean work on any dwelling, building or structure for which a building permit was issued, and work actually commenced prior to March 20, 2020 and which work was stopped in accordance with Emergency Order No. 1.

2. For purposes of this Order, the terms site, jobsite and project shall all be deemed to mean all work occurring on the same property whether the work is occurring in one or more buildings or pursuant to one or more permits.

3. Beginning on Tuesday, April 21, 2020, work on the following construction projects may resume in accordance with the terms of this Order:

**Partially framed structures, dwellings or additions**
- To allow the continued construction of partially framed structures to be framed so that the structure can be made weathertight, including the installation of roofing materials, windows and siding, but no interior finishing such as dry-wall, flooring, electrical, plumbing or HVAC work.

**Unfinished roof work**
- To allow for the completion of any roofing work on new structures and structures undergoing renovation.

**Unfinished sidewall work**
- To allow for the completion of any exterior sidewall work that was affected by the emergency order.

**Other Residential Construction**
- Any work deemed to be specifically for (1) year-round housing; (2) workforce housing; or (3) employee housing, as allowed by the Building Commissioner.

**Essential and Emergency Work**
- Existing and newly permitted projects which comprise essential construction as defined in Emergency Order No. 1, as Supplemented on April 2, 2020, may proceed with the approval of the Building Commissioner, provided that the project complies with said supplemental order and is conducted in accordance with this Emergency Order No. 5.
• Emergency repairs or other emergency work necessitated by circumstances beyond the control of the property owner or contractor may proceed with the approval of the Building Commissioner, provided that the work is conducted in accordance with this Emergency Order No. 5.

One Person Jobs
• Any construction work that can safely be undertaken with just one person on the jobsite. Workers wishing to perform one-person jobs must register with the Building Commissioner prior to commencing work. Registration shall include the name of the worker, the property address, the type of work to be done and the dates that the worker will be on the site. A registration form provided by the Building Commissioner shall be completed and submitted prior to the commencement of any work. The application shall be submitted either by hand delivery or mail to 2 Fairgrounds Road, Nantucket, MA, 02554 or by e-mail to pmurphy@nantucket-ma.gov.
• Work on a single project may be undertaken by more than one person, provided that only one worker may be on the site each day. Each additional worker must also register with the Building Commissioner. Under no circumstance shall more than one worker be on the site at a time.
• Work performed on one-person jobs shall comply with the General On-The-Job Procedures To Prevent Exposure And Limit The Transmission Of The Virus contained in this order, to the extent applicable to a one-person job, including: providing 24 hour advance notice and obtaining consent of the property owner, social distancing requirements if the property is occupied, hand-washing, wearing gloves and other PPE, and sanitizing all equipment and work areas.
• The Town reserves the right to reject any one-person job registration if it is determined that, due to the nature of the work or its location, the work cannot safely be conducted by just one person at a time.

Part 2: General Protocols:

APPLICATION PROCEDURE FOR MULTIPLE-WORKER JOBS

EMERGENCY ORDER No. 9
EFFECTIVE Monday May 11, 2020
OF THE NANTUCKET BOARD OF HEALTH
COVID-19 BACK TO WORK
PROGRAM FOR LANDSCAPING
PHASE 2

PURPOSE:

To provide the landscaping community on Nantucket the ability to maintain individual sites and preserve vegetation, life and health while still practicing social distancing and procedures to help prevent the spread of COVID-19, on April 19, 2020, the Board of Health issued the Phase 1 back-to-work landscape order (Emergency Order No. 6). The intent of that order was to allow commercial landscape companies to conduct work for the purpose of maintaining health of existing landscaped areas, not to install new or substantially alter landscaped areas. Much of this work is time sensitive as lawns and plants come out of winter dormancy and immediate steps need to be taken to prevent potential long-term health problems or plant loss. As previous measures to prevent the spread of the virus on the Island of Nantucket have been effective, the Board of Health now enacts this Phase 2 back-to-work landscape order (Emergency Order No. 8), to allow additional landscape work to be conducted. This level of work shall be allowed with strictly adhered to protocols as listed below. This protocol shall remain in place until the state of emergency is lifted or further broadened in subsequent phases. Protocols will not include installation of hardscaping, or new landscape installations.

BOSTON — Today, the Baker-Polito Administration extended the essential services emergency order to May 18th and launched a Reopening Advisory Board that will produce a plan to the Governor by May 18th. The Administration also announced that the
Department of Public Health’s Stay At Home Advisory remains in effect and gatherings of 10 or more people remain prohibited until May 18th.

**Essential Services Order:** Governor Charlie Baker’s emergency order requiring that all businesses and organizations that do not provide “COVID-19 Essential Services” close their physical workplaces and facilities to workers, customers and the public will be extended until May 18th. Businesses and organizations not on the list of essential services are encouraged to continue operations through remote means that do not require workers, customers, or the public to enter or appear at the brick-and-mortar premises closed by the order. This order also extends the existing ban on gatherings of more than 10 people until May 18th.

**Stay at Home Advisory:** Governor Charlie Baker announced that the Department of Public Health’s stay-at-home advisory will remain in effect. Residents are strongly urged to stay home and avoid unnecessary travel and other unnecessary person to person contact during this time period. Residents who are considered at high risk when exposed to COVID-19 should limit social interactions with other people as much as possible.

This group is charged with advising the administration on strategies to reopen the economy in phases based on health and safety metrics. It will meet with key stakeholders and solicit input from a variety of constituencies over the next three weeks to develop a report by May 18th that will include DPH approved workplace safety standards, industry frameworks and customer protocols and guidelines,
including enforcement mechanisms and coordination with municipal leaders. This report is due on the 18\textsuperscript{th}, but the administration has made clear that public health data and guidance from health care experts will dictate the timeline of the re-opening process.

The 17-member Advisory Board is composed of three public health officials, including Department of Public Health Commissioner Dr. Monica Bharel, three municipal officials, and eleven leaders from the business community, including MassDOT Secretary and CEO Stephanie Pollack. Baker-Polito Administration Announces Travel Guidelines and New Health Care Resources To Support COVID-19 Response

FOR IMMEDIATE RELEASE:
3/27/2020
Office of Governor Charlie Baker and Lt. Governor Karyn Polito
Governor’s Press Office
Department of Public Health
Executive Office of Health and Human Services
Massachusetts Department of Transportation
BOSTON — Today, the Baker-Polito Administration announced new COVID-19 public health emergency responses issuing new guidelines on travel and transportation, and offering further support for health care professionals and patients.

Earlier today, Governor Charlie Baker, Lt. Governor Karyn Polito, Senate President Karen Spilka and House Speaker Robert DeLeo also announced an agreement to extend the 2019 state individual income tax filing and payment deadline from April 15 to July 15, matching the
Travel Guidance: Beginning March 27, all travelers arriving to Massachusetts are instructed to self-quarantine for 14 days. This guidance will be displayed as posters at service plazas along 1-90 eastbound, distributed as flyers at major transportation hubs and on posted on highway message boards. Visitors are instructed not to travel to Massachusetts if they are displaying symptoms. Health care workers, public health workers, public safety workers, transportation workers and designated essential workers are exempt from this requirement.

Medical School Graduation: Health and Human Services Secretary Marylou Sudders and DPH Commissioner Dr. Monica Bharel have coordinated with Massachusetts medical schools to facilitate early graduation of their qualified fourth-year students to allow graduates to support the health care workforce during the COVID-19 response. This coordinated effort includes Boston University School of Medicine, University of Massachusetts Medical School, Tufts University School of Medicine and Harvard Medical School.

Emergency Limited Medical Licenses: The Board of Registration in Medicine will provide medical school graduates who have matched as an intern, resident or fellow with a Board-approved Massachusetts health care facility or training program with Emergency 90-Day Limited Licenses to practice medicine to ensure that our health care workforce is prepared during the COVID-19 public health emergency.

To qualify, medical residents must fill out an application to be approved by the program or facility, and once approved, residents will receive the emergency license and be able to start when their program begins. This Emergency Limited License will allow medical staff to provide support while the regular screening progresses, and it is not a substitute for the regular Limited License process.

Buoy Health Care Tool: The Baker-Polito Administration announced the launch of Buoy Health’s new online resource for residents to check their symptoms and connect with the next appropriate health care resource. This tool does not replace emergency medical care, but it may be used as a support for residents during the COVID-19 outbreak to connect them with appropriate health care resources if they display coronavirus symptoms.
Buoy Health’s online 24/7 tool is free for Massachusetts residents and uses current COVID-19 guidance from the CDC and Massachusetts Department of Public Health. Visit Buoy.com/mass to learn more and use the tool.

Advanced Practice Registered Nurses (APRNs): The administration has issued a public health order to provide APRNs in good standing with greater flexibility in their prescribing practices. This order includes the following updates:

- Certified nurse midwives will be allowed to continue to prescribe as already authorized.
- Authorizes APRNs who have at least two years of supervised practice experience to prescribe without physician supervision.
- Authorizes APRNs with fewer than two years of supervised practice experience to prescribe with physician supervision, but without the normally required written guidelines.

Read the order here.

MassHealth Waiver: The Centers for Medicare and Medicaid Services (CMS) has approved, in part, the Baker-Polito Administration’s 1135 waiver to fast-track MassHealth enrollment, streamline administrative requirements for providers and better deliver critically needed health care services during the COVID-19 public health emergency. CMS has approved the following items of the waiver:

- Enrollment of out-of-state providers and easing other provider requirements when enrolling in MassHealth.
- Allowing providers to be reimbursed for care in alternative, unlicensed settings.
- Suspension of prior authorization requirements and extending pre-existing prior authorizations through the emergency.

Health Care Professional Volunteers: To support ongoing COVID-19 emergency response efforts, the Baker-Polito Administration has partnered with the Massachusetts Medical Society to match volunteers with our communities and health care providers based on skillsets and need. There is an immediate need for respiratory therapists and public health
nurses, and the administration is asking health care professionals interested in volunteering to sign up at MAResponds.org (/health-services-covid-19-volunteer-form).

ORDER REQUIRING FACE COVERINGS IN PUBLIC PLACES WHERE SOCIAL DISTANCING IS NOT POSSIBLE

COVID-19 Order No. 31

WHEREAS, on March 10, 2020, I, Charles D. Baker, Governor of the Commonwealth of Massachusetts, acting pursuant to the powers provided by Chapter 639 of the Acts of 1950 and Section 2A of Chapter 17 of the General Laws, declared that there now exists in the Commonwealth of Massachusetts a state of emergency due to the outbreak of the 2019 novel Coronavirus ("COVID-19");

WHEREAS, on March 11, 2020, the COVID-19 outbreak was characterized as a pandemic by the World Health Organization;

WHEREAS, the Federal Centers for Disease Control have determined that COVID-19 is spread mainly by person to person contact and that the best means of slowing the spread of the virus is through practicing social distancing and by minimizing personal contact with environments where the virus may be spread;

WHEREAS, the Department of Public Health continues to urge all residents of the Commonwealth to limit activities outside of the home and to practice social distancing at all times to limit the spread of this highly contagious and potentially deadly virus;

WHEREAS, public health experts have determined that it is possible for an infected individual to transmit COVID-19 even when the individual does not exhibit symptoms of the virus;

WHEREAS, the Centers for Disease Control and Department of Public Health have advised individuals to wear cloth face coverings when they are out of the home and may be in close proximity to others in order to prevent transmission of this highly contagious virus;
WHEREAS, the number of confirmed cases of COVID-19 continues to rise in the Commonwealth. As of April 30, 2020, the Department of Public Health had reported 62,205 cases of COVID-19, including 3,562 deaths, with all counties across the Commonwealth affected;

WHEREAS, the eventual reopening of businesses and public places in the Commonwealth will require residents to continue to take precautions, including the wearing of masks or cloth face coverings; and

WHEREAS, sections 7, 8, and 8A of Chapter 639 of the Acts of 1950 authorize the Governor, during the effective period of a declared emergency, to exercise any and all authority over persons and property necessary or expedient for meeting a state of emergency, including but not limited to authority over assemblages and pedestrian travel in order to protect the health and safety of persons; transportation or travel; regulation of the sale of articles of food and household articles; and the policing, protection, and preservation of public and private property;

NOW, THEREFORE, I hereby Order the following:

Effective Wednesday, May 6, 2020, any person over age two who is in a place open to the public in the Commonwealth, whether indoor or outdoor, and is unable to or does not maintain a distance of approximately six feet from every other person shall cover their mouth and nose with a mask or cloth face covering, except where a person is unable to wear a mask or face covering due to a medical condition or the person is otherwise exempted by Department of Public Health guidance. A person who declines to wear a mask or cloth face covering because of a medical condition shall not be required to produce documentation verifying the condition. This requirement applies to all workers and customers of businesses and other organizations open to the public that are permitted to operate as COVID-19 Essential Businesses as defined in Appendix A of COVID-19 Order 13, as extended by COVID-19 Orders 21 and 30.

All persons are required to wear masks or cloth face coverings at all times when inside grocery stores, pharmacies, and other retail stores. All persons are also required to wear masks or cloth face coverings when providing or using the services of any taxi, car, livery, ride-sharing, or similar service or any means of mass public transit, or while within an enclosed or semi-enclosed transit stop or waiting area.

All persons are strongly discouraged from using medical-grade masks to meet the requirements of this Order, as medical-grade masks should be reserved for healthcare workers and first responders.

The Commissioner of Public Health is directed to issue guidance, subject to my approval, to implement the terms of this Order, which shall include guidance for the use of face coverings by children between the ages of two and five years old.

If a customer refuses to wear a mask or cloth face covering for non-medical reasons, a business may decline entry to the individual.
The Department of Public Health, local boards of health and authorized agents pursuant to G. L. c. 111, § 30 are authorized to enforce this Order and if necessary may do so with the assistance of State or municipal police. Violation of the terms of this Order or Department of Public Health Guidance may result in a civil fine of up to $300 per violation, in the manner provided for non-criminal disposition of violations of municipal by-law, ordinance, rule, or regulation pursuant to G. L. c. 40, § 21D.

This Order is effective Wednesday, May 6, 2020, and shall remain in effect until rescinded or until the emergency is terminated, whichever happens first.

*Sewer and DPW Directors were in contact with NGrid engineer and agreed on the following: NGrid’s new ducts be placed under all other facilities with a minimum separation of 20 inches. Changing the conduit configurations may be necessary to meet this requirement. Also, (if needed) having KOBO replace drains or sewer pipes while the trench is open, but the cost and liability of this replacement be sent to corresponding department, Ngrid will provide the trench and resurfacing.

**Contractor must obtain all required Town permits prior to the commencement of work, including but not limited to Street Opening and Street Blocking permits.
Good morning,

We had conversations last week with DPW and Sewer department and the agreement we have is for Ngrid’s new ducts be placed under all other facilities with a minimum separation of 20 inches. When we get to these crossings will be changing the conduit configurations to meet this requirements. Also agreed to was the possibility (if needed) having KOBQ replace drains or sewer pipes while the trench is open, but the cost and liability of this replacement be sent to corresponding department, Ngrid will provide the trench and resurfacing.

Hoping to get this work done the next few weeks following the hearing.

Thanks for your help

Fabio:

DPW would request that NGRID provide a minimum of 36-inches separation under ALL storm drain pipes.
This requirement accommodates the Town’s future plans to upsize our existing storm drain infrastructure without the need to relocate NGRID infrastructure.

Thanks for your consideration.

SEWER: A 6” PVC Gravity Sewer Main ends in the center of Morey Lane, with the 4” sewer service lateral running west to the dwelling at 3 Morey Lane. The lateral enters the lot approximately 5 feet north of the concrete boundary marker and should be well outside the area of proposed work. Sewer service lateral for 5 Morey Lane is more than 40 feet south of the boundary marker and should also be outside of the proposed work. The end of the sewer main will be within the area of proposed work. This section of pipe was installed in the street by others (3 Morey Lane). Depth of this pipe should be approximately 4 ½ feet. We do not have an as-built plan of this work in our records, so care should be taken when excavating or drilling. The sewer main here provides service to #3 Morey Lane only. Agenda Item Summary

Agenda Item # X. 2.
Date May 13, 2020

Staff
Assistant Town Managers, Licensing Agent, Finance Director, Public Health Director

Subject
Nantucket Town Concessions

Executive Summary
Due to the widespread impacts of the Coronavirus and the continued unknowns that exist regarding restrictions to restaurant operations and the food service establishments in general, Town Administration is providing recommendations pertaining to the opening of Town concessions in 2020 with the intent of removing as many barriers as possible to allow each concession to open for the much-needed enjoyment of the island residents and visitors this summer. Town Administration recognizes the importance these island institutions are to the healing and well-being of the island community after these trying months. These recommendations are for Sandbar at Jetties Beach, The Hungry Minnow at Children’s Beach, and The Surf at Surfside Beach. This summer is the fourth summer of operations for Sandbar and The Hungry Minnow and the first summer of operation for The Surf.

Staff Recommendation
Town Administration is recommending the following actions regarding the Town’s three beach concessions with the intent of making the path to successful, swift and safe operations as easy as possible recognizing the financial impact the Coronavirus and associated state and local restrictions has on their operations as well as the Town’s obligation to assist as landlords for benefit of the entire community. Estimated fiscal impact is $216,095 in reduced revenue. See attached Town Administration 2020 Concession Recommendations for details.

Opening Dates: Open as late as they need without penalty; or not open at all also without penalty.

Rent: Waive all rent for 2020 ($196,095 impact)

Revenue Share: Do not waive revenue share obligations in 2020. (Unknown: $85,030 in FY20 (2019))

Bathrooms: Waive responsibility for opening/closing or cleaning if concession does not open in 2020.

Event Fees (Sandbar at Jetties): Waive fees in 2020. ($5,000)
COVID-19 Operations: Town assist concessions where possible to meet or exceed safety requirements; assist with approved social distancing enhancements such as curbside and expanded outside dining where possible.

**Background/Discussion**

The Finance Director assumes no FY21 revenue from the concessions in 2020 due to the continued unknowns that make it difficult for concessions to plan without potential for great financial loss. It is Town Administration’s intention to allow concessions to plan staffing and ordering without the encumbrance of rent in this uncertain environment with the hopes that each will eventually be able to open for the enjoyment of the public who desperately need it. Not waiving the revenue share allows the Town to potentially recoup a small amount of funds should each concession have a successful summer after they are allowed to open. The Town contacted the Inspector General’s Office to explore the possibility to “carry over” one year of each contract however the ruling by the IGO is that this cannot be done and there does not appear to be legislative efforts to make it happen at this point in time. Town Administration’s recommendations are for FY21 (summer 2020) only.

Projected Fiscal Impact: $216,095 (see attached sheet for detail)

Projected Community Impact: The impact of having these concessions open for the community this summer after the devastation of the Coronavirus is immeasurable therefore Town Administration recommends the path of least resistance to facilitate their opening.
