Documentation	Architectural elevation plans, site plan, photos, and advisory comments.				
Representing	Chip Webster, Chip Webster Associates				
Public	None				
Concerns (1:29)	<p><b>Webster</b> – Reviewed changes made per previous concerns; he thought the request was to lower the height or change direction of the ridge; chose to lower the height. All the landscaping has been approved.</p> <p><b>Backus</b> – Read SAB comments from February 22<sup>nd</sup>; roof was not turned as HDC had requested; west elevation two windows are very far apart, there should be a trellis or something between.</p> <p><b>Oliver</b> – South elevation wall should be closed in so it looks like a shed.</p> <p><b>Camp</b> – Doesn't think it will be visible; it looks like there is a lot of proposed vegetation. Asked if the landscape was applied for.</p> <p><b>McLaughlin</b> – No concerns.</p> <p><b>Coombs</b> – Agrees with Ms. Oliver about filling in the south elevation wall.</p> <p><b>Pohl</b> – The caveat that the pool will not be visible at time of inspection that doesn't apply to the buildings.</p>				
Motion	<b>Motion to Approve through staff with the south elevation sidewall filled in. (Coombs)</b>

Concerns (1:39)	<p><b>Topham</b> – Reviewed changes made per previous concerns. East elevation is the front.</p> <p><b>McLaughlin</b> – Asked if the north elevation is the front (no). East elevation, the front door should be a 6-panel door.</p> <p><b>Pohl</b> – East elevation, the panes in the gable 4-light should be more vertical.</p>				
Motion	<b>Motion to Approve through staff with a 6-panel front door. (Camp)</b>

Documentation	Landscape design plans, site plan, photos, and advisory comments.				
Representing	Miroslava Ahern, Ahern Design, LLC				
Public	None				
Concerns (1:44)	<p><b>Ahern</b> – Reviewed changes made per previous concerns; the ivy comes as a panel of 6HX4L; client want to create privacy.</p> <p><b>Backus</b> – Read HSAB comments: Center Street hedge should be lower; what material is ivy wall, looks monolithic, and should be lower; granite posts should be wood; outdoor TV?.</p> <p><b>Camp</b> – A lot of this design comes from classical architecture of the area; classical elements would be better; doesn't like the ivy wall; privet should be 6 or 7 feet tall and kept dense and neat; likes the granite hitching posts.</p> <p><b>Coombs</b> – Privet should be kept low no more than 4 or 5 feet. Would like to see the wall without the ivy. Privet and ivy should both be no more than 5 feet. She wants to know what a 4-foot privet hedge with the 6-foot ivy wall will look like. This is a restaurant which we want to be as friendly and inviting as possible.</p> <p><b>Oliver</b> – Agrees about the hedge and ivy wall not being 6 feet tall; doesn't understand the reason to close this off. She can't envision looking over a short hedge at a wall of ivy.</p> <p><b>McLaughlin</b> – No comments. He wants the hedges kept as they are.</p> <p><b>Pohl</b> – Agrees the privet and ivy hedges should be no more than 5 feet. He'd be okay with a 4-foot privet and 6-foot ivy.</p>				
Motion	<b>Motion to Approve through staff with the privet hedge at 4 feet and ivy wall at 6 feet. (Coombs) not carried.</b>

Recused	Pohl				
Documentation	Architectural elevation plans, site plan, photos, historic documentation, and advisory comments.				
Representing	Lisa Botticelli, Botticelli & Pohl				
Public	None				
Concerns (2:06)	<p><b>Botticelli</b> – Reviewed changes made per previous concerns.</p> <p><b>Backus</b> – Read HSAB comments from February 22<sup>nd</sup>: bay window feels awkward; center front dormer windows could be more interesting; prefer original front door; front door style too unusual; bracketed front porch roof too unusual; number of north elevation French doors should be reduced.</p> <p><b>Oliver</b> – Appreciates the reduction of the roof walk. South elevation, the sidelight glass to the front door pane configuration is atypical. North elevation, there is a reduction of doors but more panes, which is a visual thing. Except for the bracketed, cantilevered porch roof, she has no real concerns.</p> <p><b>Camp</b> – South elevation, preferred the previously approved dormer over the front door; sidelights should relate more to the window pane size. North elevation, agrees with HSAB that this is an opportunity to simplify the north elevation,</p> <p><b>Thornewill</b> – South elevation, likes the eave line coming across over flush dormers; front door has sidelights and heavy trim. North elevation is cohesive, but the nature of the massing gives the feel of a lot of fenestration and is very busy.</p>

Representing	Matt MacEachern, Emeritus Development Andrew Reger, owner				
Public	Richard Mastain, 5 East Lincoln Avenue				
Concerns (2:20)	<p><b>MacEachern</b> – Addressed points raised in letters of concern from abutters and neighbors. Reviewed changes made per previous concerns; the wall units are on a section that is set back.</p> <p><b>Backus</b> – Existing structure is circa 1930s with blue shutters; asked that color be retained to keep that historic element; east elevation is 8'4" off property line; pointed out the east elevation has walled air-conditioning units (A/C); front door better; west elevation steps width should be reduced; east elevation, dormer was pushed back; west elevation vertical board was added.</p> <p><b>Camp</b> – Mr. MacEachern made some good points. Appreciates the changes; this is a good-looking design. She doesn't like the roof walk; it takes away from the design.</p> <p><b>Mastain</b> – To him, it's odd that the owners agree their sun will be blocked. Asked the HDC to view the two properties to see how much this encroaches on his property. This is not in keeping with the neighborhood.</p> <p><b>Thornewill</b> – Agrees with Ms. Camp about the roof walk; it is not appropriate on this style of building.</p> <p><b>Coombs</b> – Appreciates the changes. This is a 1.5-story structure that doesn't support a roof walk. She's okay with wide steps up to the front door. West elevation, the 2<sup>nd</sup>-floor, center gable windows look good separated. East elevation, the wall-mounted A/Cs meet with Resilient Nantucket guidelines.</p> <p><b>Pohl</b> – This board has nothing to do with shading on adjacent properties; there is no bylaw regarding that. Suggested lattice to somewhat screen the west elevation A/C. Two members don't want the roof walk so it should be eliminated.</p>				
Motion	<b>Motion to Approve through staff with no roof walk and lattice over the A/C. (Camp)</b>
