Documentation	Architectural elevation plans, site plan, and photos.			
Representing	Andrew Kotchen, Workshop APD			
Public	None			
Concerns (1:07)	<p><b>Kotchen</b> – Presented project; trim, doors, sashes are grey; some windows are awnings to emulate a former barn and the rest fixed.</p> <p><b>Camp</b> – Appreciates keeping the scale of the original structure and the simplicity of the design.</p> <p><b>McLaughlin</b> – Design is applicable to the area. Not one double-hung window in the structure; that’s too modern.</p> <p><b>Coombs</b> – This is a good, simple building. Asked what the windows are; the proposed windows help keep the front simple.</p> <p><b>Oliver</b> – Something makes it feel too big; wishes the smaller piece were on the corner because of the amount of glass on the north elevation.</p> <p><b>Pohl</b> – Appreciates the mass and grey trim; but he’s skeptical about the type of rakes and corner boards. He’d like the operable windows identified on the plans.</p> <p>Discussion if there are changes that would make this approvable through staff.</p>

Concerns (1:26)	<b>Kotchen</b> – Presented project; this model already exists in Cannonbury; white trim. <b>Backus</b> – Read SAB comments: east elevation, “A” window smaller for balance; north elevation, shed dormer roof off ridge more; natural to weather trim to match cottage details. <b>Oliver</b> – Except for white chimney, it’s fine. <b>McLaughlin</b> – Asked where the air conditioners (A/C) are located (not being approved today). <b>Coombs</b> – The dormers are large. North elevation, the 3 dormers should have the cheek walls reduced or larger windows to fill them. South elevation, the 2 <sup>nd</sup> -floor “B” windows should be at least one size larger. <b>Camp</b> – The chimney is appropriate but agrees not white. <b>Pohl</b> – No concerns if the chimney is natural brick.				
Motion	<b>Motion to Approve through staff with the chimney to be natural brick and the east elevation “A” window to go to “B”. (McLaughlin)</b>

Concerns (1:36)	<b>Davis</b> – Presented project. <b>Backus</b> – Read SAB comments: no concerns; pool seems close to property line. <b>Thornewill</b> – Appreciates lack of hardscaping and it’s hidden by the house. <b>Camp</b> – No concerns. <b>Coombs</b> – She would prefer a native evergreen over privet to screen the fencing. <b>McLaughlin</b> – No concerns. <b>Pohl</b> – He thinks the 2 layers of privet will work.

Concerns (1:41)	<b>MacEachern</b> – Presented project. <b>Backus</b> – Read SAB comments: cupola not in keeping with neighborhood; bracket details should be more delicate. <b>Oliver</b> – Would prefer pergola to be natural to weather. The cupola is too large. <b>Camp</b> – She preferred the previous approval; it was so simple. <b>Coombs</b> – Agrees the brackets are too large. The cupola is not appropriate. <b>McLaughlin</b> – Cupola should be eliminated. <b>Pohl</b> – The members of the pergola are overly large for its size and should be scaled down.				
Motion	<b>Motion to Approve through staff with the cupola eliminated, brackets 4X4, and the pergola beam smaller. (Oliver)</b>

Concerns (1:59)	<p><b>Paul</b> – Presented project; circa 1920 and bays not original; he has revised plans based upon HSAB comments.</p> <p><b>Backus</b> – Read HSAB comments from 6/14: the small sheds on either side of the fireplace read as bays and having French doors in a bay is awkward; perhaps 3 narrow doors with lower panel to give the appearance of tall casements; option to recess French doors in existing bays, still glass at top with panel below.</p> <p><b>Camp</b> – Thinks the little bay should stay as is.</p> <p><b>Oliver</b> – Likes the proposal that makes them all match.</p> <p><b>Coombs</b> – The shutters on the east and west won't close over the mulled windows.</p> <p><b>McLaughlin</b> – No comments.</p> <p><b>Pohl</b> – He likes the revisions per HSAB.</p>

 Concerns (2:10) **McLane** – Presented project.  
**Backus** – This is contributing; the main body is intact; revisions are not clear. Read HSAB comments from 5/24: the combinations of existing additions on the back of this house tells a story of its age and the transitions through generations of owners, and it is a shame to lose all sense of that character; the previous additions were small in scale and somewhat quirky while the new rear addition is of a considerably different scale and character; the proposed additions should be broken up to reflect the existing scale of the existing rear additions; west elevation dormer doesn't work and should be removed to retain original roof line.  
**Camp** – Did a good job with the back of the house and shoring it up; won't be visible. The chimney should be traditionally corbelled; misses windows either side of the chimney.  
**Oliver** – West dormer is unusual but that's okay.  
**Welch** – Nothing is inappropriate in the proposal.  
**Coombs** – West elevation, would prefer the originally approved 3 windows rather than the mullied 4 windows. Agrees about the chimney and the flanking windows being retained.

 Representing Joe Paul, BPC  
 Public None  
 Concerns (2:30) **Paul** – Presented project.  
**Welch** – He'd prefer to see a 3-window mock up and revised drawings.  
**Thornewill** – Agrees with Mr. Welch; this house is massive, and the 4-window cupola adds to that.  
**McLaughlin** – The cupola is inappropriate on this style of house.  
**Coombs** – It would look better without the cupola; It doesn't align over the 2<sup>nd</sup>-floor, 4-ganged windows. She'd like to see it with a clean roof.  
**Pohl** – We've never had a challenge where there was a room in the cupola and it exceeded the 30' height limit; normally a cupola doesn't count in the height. Suggested checking it out with the Building Inspector and/or Zoning Inspector.  
 Motion **Motion to View with a mock up and revised drawings with 3-window cupola. (Welch)**
