Subject: 46 center

Good Afternoon,

I was told, not sure if it's accurate, that you would like permission form BOH to enter 46 Center Street to do a walk thru with contractors who are looking to make the necessary repairs. The property is condemned for occupancy. Entering the building to assess work and to conduct work to make the building safe by licensed professionals does not violate the Condemn Order and is acceptable to the BOH. Any questions, let me know.

Art Crowley
