Attached is the other neighbor letter. Please note this one explains they want both the retaining wall and 6' fence along the West property line which abuts their property , 18 Tashama.

Thanks

RE: 16 Tashama Lane – Proposed Fence Revision

Dear Members of the HDC:

Our property, 18 Tashama Lane, is a direct abutter to 16 Tashama Lane. The Owners of 16 Tashama Lane discussed the latest revised plan with the retaining wall and revision of the approved 4' board fence to a 6' fence along the West side of the property which is along our Property line. We support these revisions. We want to have the retaining wall between our Property and prefer the revised 6' cedar board fence. The revision will provide better privacy between our homes and will be aesthetically pleasing with the suggested plantings. Hopefully, we can see this work get completed in the Spring.

Sincerely,

John T. Barrett

Attached is a support letter from Tom Barada of 14 Tashama. I will send the 18 Tashama one shortly too.

Thanks,

Matt

Thank you for putting this plan together. I spoke with both 14 Tashama (Tom Barada) and 18 Tashama (John Barrett) abutters and will have support letters for the 6' fence and plan. I still do not think I should have to install 15 arborvitaes on the south side where the property grade was unaffected (see photo). I will reluctantly agree to it provided this plan is approved at HDC meeting next week. If they still have opposition, I don't think can offer more (this already is expensive) and will be stuck reverting back to the originally approved plan with 4' fence around perimeter which I think is less accommodating to all. Linda, is it worth you discussing directly with Gregg Tivnan prior to HDC or will that only complicate things?

Thanks
Matt

Sorry for the late email....had a hell of a day....

Matt, let me know if I covered all your requests. Once everything is agreed on I will revise the application to reflect the plans.

Linda, let me know if you have any thoughts.

RE: 16 Tashama Lane – Proposed

Dear Members of the HDC:

Our property, 14 Tashama Lane, is a direct abutter to 16 Tashama Lane. The Owners of 16 Tashama discussed their proposed revision to the approved 4' board fence to a 6' fence (5+1) along the East side of the property which is proposed to be recessed in from the Property line. We are in agreement that this revision will provide better privacy between our homes as there are established trees in this area so we are unable to establish taller plantings. We are also in agreement with the owner and the other neighbors that the fencing around the pool equipment should be a 6 foot fence as well to help alleviate some of the noise it will constantly be producing.

Please accept this letter to show we prefer and support this type of revision and look forward to the completion of construction at 16 Tashama Lane.

Sincerely,

Theresa Hastings Barada
