Dear John Trudel III,

Our records indicate that the operation and maintenance contract with Wastewater Treatment Services for your innovative/alternative wastewater treatment system may have expired or was canceled as of November 5th, 2021.

I am writing to remind you that the Massachusetts Department of Environmental Protection (MA DEP) and the Town of Nantucket require you to keep an operation and maintenance (O&M) contract in effect at all times for your system.

Information about these requirements may be found at <https://septic.barnstablecountyhealth.org>. You can access the list of wastewater operators of whom we are aware do business in Barnstable County. This septic database also provides further explanation about your I/A septic system, as well as any sample and inspection history for the performance of your system, as entered by previous service providers.

My department oversees I/A septic system management and compliance efforts for the Board of Health in your town. We are authorized by your Board of Health to contact you to inform you of the above requirement and to request your compliance. Accordingly, please forward a copy of a signed contract via mail, fax, or e-mail within fifteen (15) days of receipt of this letter. For your convenience, I have enclosed a list of wastewater operators we are aware of that do business in Barnstable County. The firms listed operate multiple types of I/A technologies and are not associated with any particular technology or vendor.

Please be advised that if you do not respond within fifteen (15) days of your receipt of this letter by forwarding a copy of a signed contract, you may be referred to the Nantucket Board of Health for further enforcement action.
