July 5, 2022

Dear Mr. Vorce,

I saw the posting in the I&M about an open At Large seat on the Nantucket Planning & Economic Development Commission (NPEDC) and I'm writing to notify you of my interest in the seat. I previously served on the NPEDC as the county commissioner representative from 2020-2021. I was able to attend all meetings during that time and took the time to learn the mission and duties of the commission. I am interested in continuing that work as we work on Area Plans for the island, improve infrastructure with the new hire of the transportation director, and examine what economic development means for the Island.

I believe my previous seat on the commission illustrates my qualifications for the At Large seat. I also hold a master's degree in Applied Economics. My experience as an Economist for the U.S. Bureau of Economic Analysis, past President of the Nantucket Island Chamber of Commerce, and as an elected member of the Select Board from 2019-2022 will help me bring ideas to the commission.

Thank you for your consideration.

Please let me know if you have any follow up questions. I will plan on attending the July 18th meeting.

Sincerely,

Kristie Ferrantella
