RE: Nantucket Planning and Economic Development Commission (NP&EDC) Endorsement of Nantucket's Federal Land Access Program (FLAP) Grant Application

Mr. Grimm:

On behalf of the NP&EDC, I am pleased to provide this letter of support for our FLAP grant application. If awarded, FLAP resources will improve safe, convenient, and sustainable access to the Nantucket National Wildlife Refuge. The path will also improve community connectivity and cohesion.

We genuinely appreciate previous financial commitments that have been made by FHWA to support the project. With your additional support and collaboration, we look forward to advancing the Wauwinet Road shared use path.

Sincerely,

Nathaniel Lowell
Chair, Nantucket Planning and Economic Commission
