North Elevation

This is completely inappropriate. Its smack dab

East Elevation

in middle of town on a building that is central to the district. It will COMPLETELY change the character of the building, the streetscape & town. You cannot compare

West Elevation

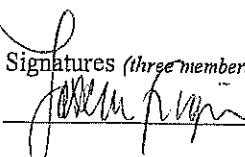

this to other 3-storey buildings in town or nearby - esp. those added onto before the HDC in existence.

South Elevation

Question date put on application.

NO DATE

East Elevation

WORK HAS BEEN ONGOING!!

West Elevation

Need a fine! They have pulled out underneath house & built a new foundation! dug

South Elevation

Deck WAY too big - runs almost 19' along Pine - totally exposed.

Other

No issue w/ front steps tho that photo likely does not original
You can have ONE skylight per roof plane
and shouldn't have any in OHB so can keep existing only
Where A/C units

Public Comment

Question visibility of basement entry as walk down Pine to Main.

No 6' grill on deck on Pine St. - belong in yard - and by code!

North Elevation

Need date - maybe 1930s

East Elevation

A roofwalk was never on a ca 1930s house. Not appropriate & looks silly

West Elevation

Rear elevation is fully visible.

South Elevation

Where is A/C?

Other

East - front door - remove sidelights - not appropriate w/ that door

Public Comment

Front - A windows reduce to "B's" - (the trade gang)
D windows on front need to be "C" - that size is accent and looks odd being used so much
