

HISTORIC DISTRICT COMMISSION REGULAR MEETING

2 Fairgrounds Road
Nantucket, Massachusetts 02554
www.nantucket-ma.gov

Commissioners: Raymond Pohl (Chair), Abigail Camp (Vice-chair), Diane Coombs, Vallorie Oliver, Stephen Welch,
Associate Commissioners: Jessie Dutra, Carrie Thornewill

~~ MINUTES ~~

Tuesday, June 7, 2022

Community Room, 4 Fairgrounds Road & Remote Participation via ZOOM.

Called to order at 5:01 pm. and announcements by Mr. Pohl

Staff in attendance: Holly Backus, Historic Planner; Esmeralda Martinez, HDC Compliance Coordinator; Adrian Rodriguez, Administrative Specialist; Terry Norton, Town Minutes Taker

Attending Members: Pohl, Camp, Coombs, Oliver, Welch, Dutra, Thornewill

Remote Participants: Coombs

Absent Members: None

Late Arrivals: Welch, 5:02 pm; Dutra, 6:29 pm

Early Departures: Camp, 8:41 pm; Dutra, 8:51 pm

Adoption of Agenda.

Motion **Motion to Approve as drafted. (Coombs)**

Roll-call vote Carried 5-0//Oliver, Camp, Thornewill, Coombs, and Pohl-aye

I. COMMISSION COMMENTS

1. Camp – There’s an as-approved 36” tall on a picket fence that looks more like 4’; asked who checks that.
Backus – asked for the address and they will check it.
2. Coombs – Someone called her about houses in disrepair.
Pohl – Explained the policy regarding demolition by neglect.

II. PUBLIC COMMENT

1. None

III. DISCUSSION

1. None

IV. SIGNS

<u>Property owner name</u>	<u>Street Address</u>	<u>Scope of work</u>	<u>Map/Parcel</u>	<u>Agent</u>
1. Gail Johnson 05-6418	21 South Water Street	Projecting sign	42.4.2/102	CWA
Voting	Pohl, Camp, Coombs, Oliver, Welch			
Alternates	Thornewill			
Recused	None			
Documentation	Sign design plans, site plan, and photos, photos, and advisory comments.			
Representing	Elazo, Main Taco			
Sign Advisory	None			
Concerns	<p>Martinez – SAC asked to hold for revisions. Reopened for Mr. Elazo’s comments. Elazo – He didn’t know about the SAC meeting; he watched the replay and put together a packet. Pohl – Recommended he take his concerns up with the SAC. Martinez – The agenda would have been sent to the applicant’s agent. The next sign meeting is June 21st.</p>			
Motion	Motion to Hold for revisions per SAC recommendations. (Oliver)			
Roll-call Vote	Carried 5-0//Camp, Coombs, Welch, Oliver, and Pohl-aye		Certificate #

VI. NEW BUSINESS 04/26/2022

	<u>Property owner name</u>	<u>Street Address</u>	<u>Scope of work</u>	<u>Map/Parcel</u>	<u>Agent</u>
1.	High Cliff Trust 04-6202	11 East Hallowell Lane	Addition/Reno	30/17	Botticelli + Pohl
Voting	Camp (acting chair), Coombs, Oliver, Welch, Thornewill				
Alternates	None				
Recused	Pohl				
Documentation	Architectural elevation plans, site plan, and photos, photos, historic documentation, and advisory comments.				
Representing	Lisa Botticelli, Botticelli & Pohl				
Public	None				
Concerns (5:11)	<p>Botticelli – Reviewed changes made per the 5/16 HSAB comments; shutters are Hamilton blue and brick chimneys.</p> <p>Backus – Read HSAB comments 5/16: While a simple front porch can often enhance the appearance of a house, this front porch is not simple, and it overwhelms the main façade. The main mass should stay symmetrical to maintain its classic look. The projecting hipped side porch dominates the front and is a distraction. It should be eliminated. The additions should be set back from the main mass to maintain the prominence and stature it currently has. The long sloping rear saltbox roof, the glassed-in side porch, the large central chimney, and the single windows with batten shutters are all important character features and should be maintained. The original main mass doesn't have ganged windows. Any proposed ganged windows should be used sparingly rather than predominantly. The existing contours of the lot should be worked with rather than completely leveled out. So much is changing on this historic house, that it feels more like a demo than an addition. In general, the proposed porch and other additions have completely transformed this traditional, classic 1927 summer cottage into a confusing mix of ganged windows and French doors, completely changing its character. The existing floor plans and proposed topographic changes should be included in the application. HSAB would like to see revisions.</p> <p>Circa 1927 Colonial revival. She and HSAB did not vet the revised plans; the HSAB comments were on the original submittal. This won't be the same with the proposed plans; the iconic 1920s features are lost. Need to know what is being demolished versus what is being retained.</p> <p>Thornewill – Feels this is a successful addition. The main mass porch and crossbucks are appropriate on the dunes. Feels there are too many ganged windows. The double chimney feels formal.</p> <p>Coombs – There are way too many ganged windows; they are too heavy for the moors. North elevation, the triple ganged windows should be reduced to doubles. Prefers the original centered, single chimney with the owl. Okay with the sunroom as seen from the north and west. Appreciates the massing.</p> <p>Welch – It appears the main structure is moving slightly and that should be clarified in the application. On the south and west elevation, we should have a cross section including existing and proposed grade with any retainage. The chimney owl would be a nice touch. Suggested a lighter structural mulling for windows to provide variety and spacing. With sun porches, should consider using a different type of window with larger or more panes. All of that would be conditioned on the fact this is accessible by a private road and it's fronted by two colossal structures on Sachem.</p> <p>Oliver – Nothing to add. Ganged windows are typical in this area. The 8-lights in the door are modern.</p> <p>Camp – Likes the idea of reconfiguring the sunroom windows to look older. North elevation, the 2nd-floor right windows should be separated; the balcony looks odd; suggested setting it into the porch more. East elevation, the dormer with the triple-ganged windows is overpowering and should be smaller.</p>				
Motion	Motion to Hold for revisions and topo cross section and to go back to HSAB. (Coombs)				
Roll-call Vote	Carried 5-0//Thornewill, Welch, Oliver, Coombs, and Camp-aye			Certificate #	
2.	High Cliff Trust 04-6191	11 East Hallowell Lane	New Garage	30/17	Botticelli + Pohl
Voting	Camp (acting chair), Coombs, Oliver, Welch, Thornewill				
Alternates	None				
Recused	Pohl				
Documentation	Architectural elevation plans, site plan, and photos.				
Representing	Lisa Botticelli, Botticelli & Pohl				
Public	None				
Concerns (5:32)	<p>Botticelli – Presented project.</p> <p>Pohl – Explained the grading on the south is unchanged while on the north they cut in.</p> <p>Backus – Read HSAB comments 5/16: No concerns.</p> <p>Her recommendation is to incorporate the lean-to which is in the existing main house to bring in the 1920s feel.</p> <p>Coombs – Thinks this is nice. West and south elevation 2nd floors, triple-ganged should be double-ganged windows.</p> <p>Oliver – Asked for clarification of the grade and retaining; a topographical cross section would be helpful.</p> <p>Welch – A site plan with retainage and proposed versus existing topography would help. Looking at the south elevation, it's hard to align the 1st-floor plain with the north elevation. Understands Ms. Coombs comments about the west and south elevations; but that's subject to visibility.</p> <p>Thornewill – Nothing to add.</p> <p>Camp – Agrees about the west-elevation triple-ganged window. North elevation, it looks like a very long ridge line. Wishes the roof pitch were steeper. Likes the idea of incorporating the lean to.</p>				
Motion	Motion to Hold for revisions, a topo cross section, and to go to HSAB. (Coombs)				
Roll-call Vote	Carried 5-0//Oliver, Welch, Thornewill, Coombs, and Camp-aye			Certificate #

Motion	Motion to Hold for next Tuesday. (Welch)			
Roll-call Vote	Carried 5-0//Thornewill, Coombs, Camp, Welch, and Pohl-aye		Certificate #	

2. 450 Green Park, LLC 11-5272	2 Stone Alley	Adtn, alter & foundation	42.3.1/103	Emeritus
Voting	Pohl, Camp, Coombs, Oliver, Welch			
Alternates	None			
Recused	None			
Documentation	Architectural elevation plans, site plan, photos, historical documents, and advisory comments.			
Representing	Matt MacEachern, Emeritus Development			
Public	Ginger Andrews, 1 & 3 Stone Alley Linda Williams, for Ginger Andrews Sarah Alger, Sarah F. Alger P.C, for Ginger Andrews			
Concerns (5:44)	<p>MacEachern – Reviewed changes made per previous concerns; north elevation trellis can wrap to the east elevation.</p> <p>Backus – Read HSAB comments 5/9: Very little if anything has been changed to address the massing concerns since the last version. The middle section is still not subordinate enough, still too massive and boxy; it should have a lower ridge and a lower plate; making it a couple feet narrower with a roof pitch that matches the main roof would lower the ridge and drop the plate. The hipped-roof addition to the east should have more of an appearance of an enclosed porch; simply adding a large, hipped roof to the back of this house is not a traditional massing approach; reducing the depth east to west to 10 or 12 feet would make it feel like an open porch that was later enclosed. These additions are considerably larger than the existing house; they overwhelm the original cottage and completely change the scale. HSAB would like to see revisions.</p> <p>Reviewed the history of this structure and its importance. Secretary of Interior standards state new additions should be smaller and subordinate to the historic structures. Eliza Codd’s sunroom should be retained. The north gable doesn’t match any existing element. A window survey would be appreciated.</p> <p>Andrews – This was a typical New England barn set up on the hill. Concern about the massing has been brought up consistently; their treatment has been insufficient and concerns still remain. North elevation, the foundation is right on Stone Alley; she’s concerned about maintaining the integrity of Stone Alley during reconstruction. The ridge height of the 1st addition is overwhelming.</p> <p>Williams – For 4½ years, HDC and HSAB have been consistent about asking that the addition go south rather than down the hill; she was told they don’t want to block their view of the harbor from the kitchen. The floor structure should follow the existing grade of Quantity Bluff; the exposed foundation will be 100% visible from Union Street. This proposal creates a new vernacular for Stone Alley and the bluff. The existing has a unique setting and place in time. The proposed will obliterate the view of Quantity Bluff.</p> <p>Alger – Supports the comments of HSAB and Ms. Backus.</p> <p>Camp – Reduce the height of the middle mass a couple of feet so it relates to the sunporch. On the sunporch, she would like wrap-around windows, so it looks like a sun porch; the hipped roof should be flat; the triple ganged above that should be 2 separated windows.</p> <p>Welch – He sees no material changes; his comments are the same as at the last hearing. Agrees with Ms. Alger roposed addition is consuming the historic structure. North elevation, which is left to right along Stone Alley, should step down; only lowering the shingle line along the leftmost structure, the porch, doesn’t accomplish this. That porch and the hipped roof are still too long, no length has been taken out, all other things equal this should be reduced 3’. Feels that if we don’t see material changes within 3 meetings, an application should be denied—this is fair to other applicants, abutters, and Commissioners. North elevation, the structure should follow the grade; the concept of single-story living is driving the external programming and not in keeping with historic structures; those typically followed grade. In response to applicant’s agent asserting many changes have been made, pointed out lack of material changes is the concern.</p> <p>Coombs – We’ve been doing this for 4 years and she’s repeatedly asked that the center addition ridge be dropped and for the addition to go south; it repeatedly comes back with no change. They are designing around a historic house and their view is immaterial. The center section should be dropped considerably. East elevation, the hipped roof should go.</p> <p>Oliver – Feels this has come a long way and is moving in the right direction. It still overwhelms the historic house. South elevation, the sunroom was moved, not lost; the double door in the dormer should be a single door. Drop a foot out of the middle section height.</p> <p>Pohl – The middle mass troubles him the most; it should be reduced so it doesn’t compete with the original house.</p>			

Motion **Motion to Hold to either step the 1¼-story ridge down, step the hipped porch down, and create a 3-season look on the porch or provide a design solution to the south and to go back to HSAB. (Welch)**
 Roll-call Vote Carried 5-0//Oliver, Camp, Coombs, Welch, and Pohl-aye Certificate #

VIII. NEW BUSINESS 05/10/2022

<u>Property owner name</u>	<u>Street Address</u>	<u>Scope of work</u>	<u>Map/Parcel</u>	<u>Agent</u>
1. Jason & Jennifer Mendelson	05-6328 7A Sherburn Turnpike	New dwelling	30/112	Studio Ppark
Voting	Pohl, Camp, Coombs, Welch, Thornewill			
Alternates	Dutra			
Recused	Oliver			
Documentation	Architectural elevation plans, site plan, photos, historical documents, and advisory comments.			
Representing	James Krapp, Studio Ppark			
Public	None			
Concerns (6:26)	<p>Pohl – He represents the abutter to the north but feels there is no conflict. Krapp - Presented project. Backus – This was subdivided off a 1920 colonial revival. The proposal is boxy; additive massing should be lower and more subordinate. The French door lights are not appropriate. Thornewill – The massing suggests a typical 5 bay, but it reads differently. The eave height, windows and deck rails don't work with a 5-bay as well as the use of dormers on the front. The main mass is a little tall. Camp – South elevation, the right addition overwhelms the front façade; the front door should be centered with something over it to give it emphasis. The proposed driveway will span the entire front façade. Welch – Agrees with what's been said about the right massing, but the perspective drawing indicates the spacing is mitigated. Front elevation, the meeting rails should align with the eaves; the lack of 2nd-floor symmetry should be translated to the 1st floor. Bringing the addition down would be an important concession. Coombs – Agrees with what's been said. Front elevation, the front door or what's above should be moved to align; right addition looks very flat; would prefer 3 windows on the 1st floor and a smaller 2-window dormer. Pohl – The same eave wraps the entire building; the eave should change on the garage wing; the eave should be dropped to align with the garage dormer meeting rail; the garage is too tall.</p>			

Motion **Motion to Hold for revisions. (Camp)**
 Roll-call Vote Carried 5-0//Thornewill, Welch, Coombs, Camp, and Pohl-aye Certificate #

2. Robert Moore	05-6286 29 Cliff Road	Addition dormer	42.4.5/6	NAG
Voting	Pohl, Coombs, Oliver, Welch, Dutra			
Alternates	Thornewill			
Recused	Camp			
Documentation	Architectural elevation plans, site plan, photos, historical documents, and advisory comments.			
Representing	Steve Theroux, Nantucket Architectural Group			
Public	None			
Concerns (6:43)	<p>Theroux – Presented project. Backus – Read HSAB comments 5/23: Unlike the existing dormer on the north side, this dormer faces Cliff Road; the dormer takes up too much of the roof plane and has too much blank shingled wall on the ends. This should either be 2 small single window dormers or one dormer with 2 separated windows with minimal shingled wall on either side of the windows. Lowering the dormer plate height would also reduce the scale of the dormer. West elevation and garage door are drawn incorrectly. HSAB would like to see revisions. Circa 2004 associated with circa 1850 house. The triple-ganged window configuration within the long dormer is atypical. The provided photos show historic context for contemporary additions with appropriately spaced windows. Welch – Agrees the windows Ms. Backus mentioned are atypical; south elevation, suggested the window header and casing be one and the same allowing lowering the window height thus lowering the eave. Oliver – Spreading the windows out to fill the north elevation dormer would help. Coombs – Agrees with Mr. Welch about the south elevation dormer. Dutra – He's concerned about making the changes proposed by Mr. Welch would cause the 2 sides not to be the same. Pohl – He likes separating the windows and dropping the eave; the north elevation is not visible.</p>			

Motion **Motion to Approve through staff per Exhibit A. (Welch)**
 Roll-call Vote Carried 5-0//Oliver, Dutra, Coombs, Welch, and Pohl-aye Certificate # **HDC2022-05-6286**

Documentation	Landscape design plans, site plan, photos, historical documents, and advisory comments.				
Representing	Val Oliver, V. Oliver Design				
Public	None				
Concerns (7:39)	<p>Oliver – Presented project; clients will go with a privet hedge instead of a fence.</p> <p>Backus – Read HSAB comments 5/16: A board fence does exist on the neighboring property, but it is not pretty or friendly and shouldn't be encouraged. Most of Hulbert Avenue has no fence along the street, and this property should follow that example and remain without a fence as it is now.</p> <p>Circa 1900s Colonial revival moved from Sandy Drive. The Belgium block apron is too formal for this section of Hulbert Avenue; doesn't agree with HSAB about the fence; could continue the same fence, height, and treatment of neighbor's fence that was in place since the 1940s. The new curbcut requires an apron.</p> <p>Camp – A fence would be more appropriate and private for a backyard. No concerns as proposed</p> <p>Coombs – The hedge will be good.</p> <p>Dutra – He has no concerns with the project.</p> <p>Pohl – Suggested cobble or brick instead of Belgium block but prefers the Belgium block over asphalt.</p> <p>Motion to Approve with privet hedge instead of fence, Belgium block apron, and shell drive. (Camp)</p> <p>Carried 5-0//Coombs, Dutra, Thornewill, Camp, and Pohl-aye</p> <p>(8:24) Motion to Reopen. (Camp) Carried 5-0//Thornewill, Dutra, Oliver, Camp, and Pohl-aye</p> <p>No concerns with the drive being peastone gravel rather than shell.</p>				
Motion	Motion to Approve through staff with the privet hedge and peastone drive. (Camp)				
Roll-call Vote	Carried 5-0//Thornewill, Coombs, Dutra, Camp, and Pohl-aye		Certificate #	HDC2022-05-6253	

14. The Iren Hollo Zolo FT 05-6268		31 Low Beach Road	Addition & move on site	74/36	Botticelli + Pohl

Recused	Pohl				
Documentation	Architectural elevation plans, site plan, photos, historical documents, and advisory comments.				
Representing	Lisa Botticelli, Botticelli & Pohl				
Public	None				
Concerns (7:52)	<p>Botticelli – Presented project.</p> <p>Backus – Read SAB comments 5/16: Evidence indicates an earlier date. Concerned about losing feel of front porch and filing in entirety is character changing; exterior stairs should run the opposite direction.</p> <p>Circa 1938 Victorian eclectic per HDC survey; however, Nantucket Preservation Trust (NPT) information indicates as early as circa 1895 associated with the Coffin family. Agrees with SAB about enclosing the porch. Appreciates it's remaining in the area; suggested not altering the front as much as proposed.</p> <p>Welch – Appreciates the “non-dramatic” change. The differing light configurations should deploy more readily. South elevation, the porch change is more appropriate; the Victoriantesque-bungalow trim details would help filling in the porch. West elevation, the rear addition looks long; but its lack of visibility mitigates his concern. Would like the front 4- windows replicated on the new front wall of the porch.</p> <p>Oliver – Agrees about the partial porch version.</p> <p>Dutra – Feels it now reflects more of the old building. South elevation, the revised partial porch helps a lot; agrees with Mr. Welch's comments about the trim detail; a larger overhang to match the rest of the house might help.</p> <p>Coombs – East elevation, it looks like a lot of windows; the 16-over-2 look like windows for a filled-in porch.</p> <p>Camp – Rafter tails and ornate balustrades might be nice. Agrees about turning the stairs.</p>				
Motion	Motion to Hold for revisions. (Coombs)

Concerns (8:17)	<p>Botticelli – Presented project; picket across the front and 5&1 along the side.</p> <p>Backus – Read HSAB comments 5/16: The original pointed stockade picket would be preferred. Color should match house trim.</p> <p>Circa 1938 Weeweeder Dining Hall. Agrees the pointed historic is appropriate and should match the home.</p> <p>Welch – On the right, the 5&1 fence should not protrude forward of the front corner of the house.</p> <p>Coombs – Agrees with Mr. Welch; the right fence should stop at the front corner of the house.</p> <p>Oliver – Agrees.</p> <p>Camp – Also agrees.</p>			
Motion	Motion to Approve through staff with the right 5&1 to stop at the front corner of the house and with pointed picket. (Welch)

Concerns (8:26)	<p>Twarog – Presented project: brick terrace, 2X2 bluestone pavers, arbor or fence, and increase parking.</p> <p>Discussion about the width of the proposed curb cut.</p> <p>Backus – Read HSAB comments 5/16: The site plan should indicate what changes are being applied for; there is currently nothing identified on the drawing. HSAB would like to see this again with more info.</p> <p>HDC survey indicates circa 1925 bungalow. Agrees the site plan is unclear. An atypical amount of paving for this site. Picket would be more appropriate than the arbor. The existing curb cut is shared so must have strict dimensions on the plan prior to the curb cut application.</p> <p>Oliver – The existing curb cut probably exceeds the allowed width; suggested reinforced grass for the new parking. The bluestone should be a more organic shape. A picket fence is more appropriate than the proposed arbor. Okay with the brick in the rear. The plan doesn't show the existing brick apron.</p> <p>Camp – That's a lot of brick. Suggested a picket-privet mix to separate the private area; suggested using all brick. She'd prefer a more conventional arrangement for the parking.</p> <p>Welch – Okay with brick in the back. Suggested softening the edges of the bluestone. Regarding aesthetics of the parking, the privet should be extended ¾ of the open space; you can widen parking with the curb cut remaining as is.</p> <p>Coombs – Wants to see how Department of Public Works (DPW) handles the curb cut application. Will need to contact the Tree Warden about the Town tree. She'd like to view this.</p> <p>Pohl – You need to contact the DPW about what they will grant regarding the curb cut. He's okay with the brick in the back; it won't be visible. The fence idea is preferable over the arbor. Doesn't think an irregular edged bluestone will serve their needs well.</p>			
Motion	Motion to Hold for revisions further information. (Welch)
